As the genuine Syrup of Figs is manufactured by the Camponnia Fig Synter Co. only, a knowledge of that fact will assist one in avoiding the worthless

imitations manufactured by other parties. The high standing of the Cali-FORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauscate. This Is Especially True in the Western Provinces. Where the Insurgents Complain They Have Been Ignored and Abandoned by the United States.

London, Sept. 20 .- The Times publishes a letter from a Havana correspondent in which the writer points out that, though, as in the mother country, there appears no disposition among the Spaniards of Cuba to atand civilians slike having accepted the disaster and its consequences with a dreary fatalistic calm, the island is fast drifting into a condition of an-archy. Insurgent bands, the corre-spondent says, are enjoying immunity in the commission of outrages and plundering, and this is especially true in the western provinces, where the insurgents bitterly complain that they have been ignored and abandoned by the United States, and, being left utterly destitute, can only save themselves from starvation by rapine. With-out food, medicine and clothing, they are dying like flies, and unfortunately it is the best elements among the insurgents that are suffering most se-

The correspondent relates terrible stories of anarchy, and says the Amer-lean government is apparently at-tempting to suppress the truth. As an instance he gives the following story, which he declares was suppressed by

the censor at Key West:
A band of insurgents attacked recently the Providencia sugar factory, near Guinez, one of the richest in Cuba, The guerlin force which the proprietor maintained to defend his property until the arrival of the Spanish troops was obliged to surrender, because the Spanish troops now do nothing to suppress lawlessness. The insurgents in vaded the inclosure, where they found a lot of reconcentrados. They stripped the women naked, and placing them in line fired behind them at the guerillas, thus making it impossible for the defenders of the factory to return the

fire.
The correspondent declares that the most terrible and irremediable effect of the prolonged civil war in the island is the almost total destruction of the white population, which has left Cuba

almost as black as Hayti.

The Times in an editorial article draws attention to the difficulties fac-
